

The European Semantic Web Conference Committee would like to invite you to participate in the Third Annual ESWC Conference to be held in Budva, Montenegro from June 11- 14, 2006.

The 3rd Annual European Semantic Web Conference will present the latest results in research and application in Semantic Web technologies (including Semantic Web Services, Ontologies, Applications of Semantic Web Technologies, Social Software, User Interfaces for the Semantic Web, Semantic Web and Trust, Privacy and Security, and NLP for the Semantic Web). ESWC 2006 will also feature an industry-oriented event providing European industry with an opportunity to become familiar with these technologies. It will offer a tutorial program to get up to speed with European and global developments in the area.

ESWC 2006 CALL FOR PAPERS

ESWC 2006 welcomes the submission of original research and application papers dealing with all aspects of the semantic web. We particularly encourage the submission of papers relating to industrial efforts and experiences with semantic web projects. We also encourage theoretical, methodological, empirical and applications papers. The conference also encourages the submission of system demonstrations. Please visit <http://www.eswc2006.org/> for further details.
